

Kilroy – Public Outreach Meeting # 10

Time: 4:30 PM Thursday, January 17, 2019

Location: 384 Oyster Point Blvd., Suite 1

Meeting Minutes

1. Generators
 - a. Residents are concerned about impacts to boating equipment due to power fluctuations.
 - b. Many complaints have been brought up to our attention related to delays on reimbursement for damaged equipment.
2. SWPPP
 - a. Many are worried that our site is not compliant with SWPPP regulations.
 - b. Runoff water, and oil spills being the biggest concerns.
3. Tidal Events
 - a. Recent tidal events have contributed to the flooding of the temporary road.
4. Temporary Road
 - a. There is an issue with the increasingly large potholes that have developed along the temporary road, as well as, sections of Oyster Point Boulevard.
 - b. These potholes are leading to cars getting damaged.
 - c. There is a push to install additional lighting to the intersection of the temporary road.
5. Harbor District
 - a. The idea of using vac pumps will not help mitigate flooding.
 - b. A more effective solution would be to raise the road to a higher elevation.
6. Q&A
